SUMMARY:

MERN Stack Developer skilled in React, Node.js, Express, and MongoDB. Passionate about building scalable, user-friendly web applications and optimizing performance.

TECHNICAL SKILLS:

- **Frontend** - Javascript , React.js , Redux , Next.js , TailwindCSS
- **Backend** - Node.js , Express.js
- **Database** - MongoDB

PROJECTS:

1. [\[Link\]](#) **ContactVault - Contact Manager** - Front End and Back End Development

Tech Stack: React.js, TailwindCSS, Node.js, Express.js, MongoDB, Redux, JWT Authentication

- Frontend development using React.js for creating interactive and responsive user interfaces.
- Backend development built using Node.js and Express.js to handle API integrations, and database operations.
- Database management utilized MongoDB as the database to store and manage contact information and user data.
- User authentication: Implemented user authentication and authorization using JWT.

2. [\[Link\]](#) **iShop(Ecommerce Website)** - Front End and Back End Development

Tech Stack: Next.js, TailwindCSS, Node.js, Express.js, MongoDB, Redux, JWT Authentication

- Frontend development using Next.js for seamless user interfaces.
- Backend development built using Node.js and Express.js to handle API integrations, and database operations.
- Database management utilized MongoDB as the database to store and manage product information and user data.
- Developed a JWT-based authentication system, ensuring secure and scalable user management.

3. [\[Link\]](#) **QuizApp** - Front End Development

Tech Stack: React.js, TailwindCSS, Firebase, Context API

- Frontend development using Next.js for seamless user interfaces.
- Backend development built using Firebase for user data storage and authentication.

EDUCATION:

MGSU University, Bikaner | Bachelor's Degree in Computer Applications | July 2021 to March 2024

CERTIFICATIONS:

- **MERN Stack Web Development - WsCube Tech**
Covered React.js, Node.js, MongoDB, Express.js, and full-stack deployment strategies.
